1.INTRODUCTION

Huntersville Tennis Association is a website developed for tennis professionals and for people who are passionate about tennis in Huntersville area. Website was designed based on the need finding survey carried out on a large population in Huntersville area. The results of the need finding survey led to a conclusion that people find it difficult to manage different tennis matches and the tennis matches they are hosting. Huntersville Tennis Association website provides a platform to keep track of the matches in an efficient way.

This application facilitates following activities:

- Users can register their details in order to access their profiles.
- Users can login to the website using valid credentials.
- Users can explore their profiles and verify a list of tennis matches they did RSVP for.
- Users can explore all the match events and add to their profiles by doing RSVP for these match events.
- User can update the list of added match events to their profiles and change RSVP for these match events.
- Users can delete an added match event from their profile for which they did RSVP in the past.
- Users can create a new tennis match event and provide all the details about this new match event.
- Users can update the match event details they created in the past.
- Users can delete the match event details they created in the past.

2.DIFFERENT FUNCTIONALITIES

This section explains all the different functionalities any user can perform using Huntersville Tennis Association website. This sections also contains all the required information and knowledge on how to use these different functionalities. All the required navigations are also explained.

2.1REGISTER

This is the first step towards using this website. Functionalities like “Add/Update/Delete a match event” and “Add/Update/Delete RSVP to a match event” requires any user to logged in on the website using valid credentials. Register functionality enables user to create a profile and that profile can be accessed using username and password. Username refers to the email id of the user.

Following is the Home page of Huntersville Tennis Association website:

User should follow following steps in order to register in the website:

1. Click “SignUp” link.
   Once user clicks “SignUp” link, following screen will be displayed:

2. User should enter all the fields that are displayed in the form. All the fields are mandatory. Email will be the username for this website profile login. After entering all the details user should click “Signup” button.

After hitting “Signup” button, if all the field requirements are satisfied, user will see a success message on the screen “User successfully added.”

2.2 LOGIN

Now when user has successfully registered on the website, user can login using “email” and “password” and logged in to the website.

User should follow following steps in order to login to the website:

1. User should click on “Log-In” link present on the home screen. Once user clicks on this link, following screen will get displayed:

2. User should enter email id for “Username” and password for “password” and clicks on “Login” button on the screen.
   Once user clicks “Login” button, and username and password are validated, user will be redirected to the profile.

As this user is new, no match events are getting displayed in user profile.

2.3 RSVP TO A MATCH EVENT

Once user has successfully logged in to the website, user can check list of all match events present in the website and RSVP for any match event.

User should follow following steps to RSVP to any match event:

1.User should click link “Connections” to see list of all the match events. User will be redirected to following screen:
